Dear Superintendent Bennett:

We wish to bring to your attention the names of three troopers, Vincent Corona, Steve Kelly and John Roe, for their efforts in organizing and developing the training seminars that were recently held at the Troop E Headquarters in Canandaigua. Their dedication and professionalism helped make the training a success.

The purpose of the training was to increase awareness for all the State Police personnel in utilizing the various DMV rules and regulations of the NYVIP inspection program and dealer program. The training also included an explanation of fraudulent documents. These individuals were instrumental in organizing, scheduling and providing the facilities for this training. This was the first joint State Police and DMV training of its type. From the feedback we have seen, the training was very well received. Troopers Corona, Roe and Kelly admirably carried out the complex training seminars with the utmost professionalism. We at DMV appreciated the opportunity to provide input into the training and to be a part of these seminars.

Sincerely yours,
